Billy Graham says that the US is as wicked as
Sodom and Gomorra.

Actually, there was no Sodomy in the bible story.
Several Angles appeared (Quantum effect, I guess).
A crowd gathered and wanted to have sex with the
Angles - man O man O - so to speak.

It was an ancient custom at the time if you could have
sex with a god type creature, you would be powerful,
and or gain his power. Sounds like a dirty habit to me.

Mr. Lott told them, not so fast now, you can have my
daughters - both virgins. The crowd said not by the hair
of your chine chin chin. So to Speak.

God told Mr. Lott to get the hell away from this place and he
would destroy it. Lott asked God, "What steps should I take?"
God said, "F***ing big ones?"

Lots wife talked continually on the trip when Mr. Lot told her
to look back and check on the house.
Yakety yak don't look back.

(The look-back story was used in a Greek katabasis (myth).
Orpheus cannot resist the urge to look-back. Then his wife Eurydice
disappears to the land of the dead.)

You know the salt story for Lott's wife. Just to spice the
story up. (Actually salt is a mineral.)

Anyway, Mr. Lott had some real horny daughters. They got
him drunk and screwed their dear old dad.

So, you can see there were not any trips up the dusty road
in this story, just Lust, Incest, and Salt.
